Original artwork by Rob White and Oscar Woolley at The Art-Hole

Simon Mills makes things. He likes the flashing lights, and the opportunity to create environments from sound, as it keeps him safe from the 'real world'. He works as a musician, occasionally produces, but mainly lives as one half of 'Cuckooland'.

Ian Sanderson experiments. He likes surprises and adventures with natural ingredients. He likes to keep an open mind on the future of music. He is a composer, producer and musician but mainly just enjoys the process of creativity. He lives as the other half of 'Cuckooland'.
